Inquest.

The murder of Cinderilla Hunt, colored by her husband, Dave Hunt, near Kerrville on the Paducah railroad, has created a goo deal of excitement, especially among the col-ored people. Sunday morning the lifeles-body of Cinderilla Hunt was found in the Big Creak bottom, a mile and a half from ome. The dead woman was lying on her side, and presented a sickening sight, for her throat was cut from ear to ear. The day before her mysterious disappearance the wom was seen in company with her husband by Mr. John Armour, but her fate was not known until her body was found in the woods, where the people had gone in search of her. Justice A. D. Hunter, being notified of the murder, summoned a jury and held an inquest upon the dead body. From the circumstan-tial evidence in the case, the jury returned a verdict that the woman "came to her death by the cutting of her throat with an edged tool in the hands of her husband, Dave Since the murder Dave Hunt ha not been seen, but it is thought that he came

In order to keep a natural healthful activity of the system we must resort to artificial means For this purpose Schenck's sea weed tonic is very effectual. A few doses will create an appetite and give fresh vigor to the enervated body. For dyspepsia, it is invaluable. Many eminent physicians have doubted whether dyspepsia can be permanently cured by the drugs which are generally employed for that purpose. The sea weed tonic in its nature is totally different from such drugs. It contains no corrosive minerals or acids; in fact it as sists the regular operations of nature, and supplies her deficiences. The tonic in its naure so much resembles the gastric juice that it is almost identical with that fluid. The gastric juice is the natural solvent which, in a healthy condition of the body causes the food to be digested; and when this juice is not excreted in sufficient quantities, indiges ion, with all its distressing symptoms follow The sea weed tonic performs the duty of the gastric juice when the latter is deficient.
